One thing that ought to be favorable the Richard Olney boom is the fact o Grover Cleveland's opposition to it.

An exchange speaks of "the two-fold pleason of the newspaper reporter." We regard the mission of the average reporter as a cort of three-fold object - breakfast, dinner and supper. When it comes to the bed, he can sleep on the exchange table,

Miss Alice Roosevelt, it is said, is horse fancier, and bets her spare change on borse racing. She will soon earn her title to a conspicuous place in the "400." and ere long she will throw herself away on some penniless sion of a morribund European "nobility."

Cleveland's popularity with the Repub licans and their prompt indorsement of every suggestion of his candidacy ough to be sufficient evidence of his lack of true Democratic principle, if there were not ninety-nine other good reasons why he should be at once put outside the pale of even respectful consideration as a possia. ble Democratic candidate for anything.

A newspaper correspondent polled the Legislature the other day on the yet remote Senatorial race. According to the straw vote, the House stood : Stockton 42; Taliaferro, 6; non-committal, 19. In the Scuate: Stockton, 12; Taliaferro, 7; non-committal, 13. Those who were noncommittal are supposed to be for Gov. Jennings: This would give Stockton 54. Jonnings 82, and Taliaferro 13. Happily for Florida, the present Legislature does that do not renew. not elect Senator Taliaferro's successor.

Advertising is not a reckless gamble. It is a force as powerful and subtle in the commercial world as electricity is in the physical world

Its proper and direct use offers a sure road to success, and a well established and well circulated local newspaper offers one of the safest and cheapest mediums between the merchant and his customers to be found in any method.

Money spent for advertising is not as expense. It is an investment. It is worth while to bear this in mind. -St. Augustine

The orange blossom, hitherto regarded as indispensable at weddings as wreaths for the bride, is no longer in favor among the mahiomable set. It has given place to lilies of the valley, which are now all the rage. Orange buds always were inconvenient and ungraceful, but a bride was not looked on as a bride unless her veil was caught up with a spray of waxen imitations. Then she was permitted to carry

Senorita Clemencia Lopes, a Philipino lady, discribed as "young, beautiful and highly educated." is now in America to plead for the liberty and independence of

the Philippine people. She made ber debut in Boston last week at an anti-imperialist lancheon - a good place to inaugurate a first-class funeral

for a laudable ambition. Miss Lopez expressed her gratitude to General Miles for his truthful report on the situation in the Philippines and the Jake-Smith-ism of the American soldiers. She expressed a hope that the disclosures made by Gen. Miles would help along her crusade for freedom - another evidence

of her lack of sophistry. She is anxious to meet President Roosevelt, and pour out her heart to him. She will hardly do this-if Teddy sees her first. She had better see Mark Hanna, the Great American Arbitrator. He can

soothe her yearning heart. Miss Lopez very truly says: "The only true way to get the facts of the situation is to have Congress appoint an impartial commission to go out there and make a thorough personal investigation of the wlole question, and ascertain the real condition of the native people and their sen' m ats regarding American rule." THE GOOD ROADS BILL

The "Good Roads" bill introduced by Senator Mac Williams in the Legislature the other day seems to about cover all the available ground in sight at present. It provides for the absorption of all the internal improvement funds now in the State treasury, the appropriation of a large part of the revenue from swamp and overflowed lands, the Indian War Claims fund, and any money that may be hereafter received from the National Government for road construction.

The trustees of the State internal improvement fund are to become the State Commissioners of Good Roads. This bill is about the best solution of

the good roads problem, and it ought to pass. But we have no hope for it at this time. The public mind is not yet ripe for such a broad step in the right direction. The good roads question is one of great importance to Florida, where good roads are the exception instead of the rule. All and rural, are pretty well agreed as to the manifold advantages to be derived from a system of good roads.

But they differ widely as to the best methods of obtaining them. Whenever an attempt to secure National aid for "I wish to insist that the only way to better roads is made, the ghost of the educate the public up to your system of old States Rights Bugbear, which was

> When the question of State aid to good roads is broached, the opposition takes on another hue. This time the cry is "Inequality of Taxation and Distribution of Benefits." "Let each county build its

own roads," says many wise men. At first blush, this idea looks good, but it does not always pan out. Many of the the counties in Florida are controlled by political rings, and these rings usually dwell about the county seat. Then the remote parts of the county, which often contribute the largest portion of revenue

receive the smallest portion of the public benefits to be derived from the system. It is always hard to break up a political ring. No matter how corrupt it may be, it generally finds ways and means to hold its grip upon the throat of the taxpayer. It coerces the dependent, enjoles the weak, rewards the strong, and with

the lash of party fealty compels the obe dience of the timid. Few, indeed, are the those who have the moral courage to put public duty above party fealty. There are times, however, when for bearance ceases to be a virtue-when

conditions arise that justify revolution. It is then that the politions scamper for the fence, and the wise ones get down on the side of the people, and the "Rule or Ruin" element passes into oblivion.

Grim Grasp Caused Heart Disease.

Could Not Lie On Left Side.

Dr. Miles'Heart Cure and Nervine Cured Me.

Mrs. H. R. Jobe, formerly of Birmingham, Ala., writes from Eldredge, the same state,

"It is with the greatest pleasure that I recommend Dr. Miles' Nervine and Heart Cure. I only wish that I could tell every sufferer how much good they have done me. Last winter I had a severe attack of La-Grippe, which left my heart in a very bad condition. I could not lie down for the smothering spells that would almost overcome me and the feeling of oppression around my heart. I had not been so that I could lie on my left side for a long time. I got your Heart Cure and took three bottles.

I have no trouble now with my heart and can lie on my left side as well as my right. Formerly I had suffered for years with nervous prostration. I had tried so many remedies that I had got clear out of heart of getting anything that would help me. The nerves of my heart were so affected that sometimes it would lose beats so it would seem to stop altogether. It was on the advice of a lady friend that I tried your Restorative Nervine. I felt better after the first few doses and two bottles of Nervine and one of Heart Cure made me feel like a new person." My heart is all right and my nerv-

cusness is all gone. I never fail to recom-mend it to others afflicted as I was." All druggists sell and guarantee first bot-tle Dr. Miles' Remedies. Send for free book on Nervous and Heart Diseases. Address

Spring Ailments.

There is an aching and tired feeling; the liver bowels and kidneys become sluggish and inactive, the digestion impaired, with little or no appetite, no ambition for anything, and a feeling that the whole mind and body needs toning up. The trouble is, that during winter, there has been an accumulation of waste matter in the system. Herbine will remove it, secure to the secretions a right exit, and by its tonic effect, fully restore the wasted tissues and give strength in place of weakness, 50c at J. M. Jones

A HEALTH POLICY

The system is, from natural causes, debilitated or run-down both in the spring and fall. The seasons' changes are always a tax on the human organism. The blood becomes impure in the spring, and vitality lags in the fall.

A little care, a little assistance, and nature will do the rest, as it is always trying to maintain health. Frequently the weakest organ will show the most disorder, and this often leads to wrong treatment. For the debilitated conditions of spring or fall, or any other time, for that matter, the right thing to do is to build up the whole system. It is not your stomach, or liver, or nerves alone that cause the trouble; you are weakened all over and must have renewed strength and vitality. These you cannot get so quickly or surely o

safely as by using **IRON TONIC**

When you use Dr. Harter's Iron Ponic you are helping to renew the vigor of every fiber of your body. You are cleansing and enriching your blood; you are strengthening your stomach and increasing the digestive fluids; you are building up and renewing the activity of your kidneys and liver: and you are feeding and revitalizing your nervous system. You cannot do this without getting well, and you cannot take Dr. Harter's Iron Tonic without doing it.

The Dr. Harter Medicine Co., Dayton, O.
GENTLEMEN:—I unhesitatingly recommend Dr. Harter's Iron Tonic, as I firmly believe it is the best tonic on the market to-day. Every spring and fall my system seems to be in need of a tonic, and for the past three years I have taken a bottle of your tonic twice a year.
